Situation:

The number of refugees in Germany continues to increase. Many have little or no contact with Germans. Lack of cultural awareness and language on both sides increases fear, mistrust and misunderstandings. Many of the refugees are traumatized and just long to live in peace.

The interdenominational initiative “**Cross Culture**” aims to establish contacts between the inhabitants of Zwickau and the refugees to help to break down prejudices, to overcome cultural and linguistic barriers, to promote integration and to give practical help.

Our monthly services are open to all visitors. We appreciate everybody, regardless of origin and religion. The services will be translated into different languages.

Ministry can be developed according to personal strengths e.g. cultural activities (art, music, drama...), traditional activities (Bible study groups, children’s clubs...), language courses in German, training seminars for those seeking to reach out to Muslims.
